A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village will continue to educate the public about stormwater. The Village will continue to post stormwater information on kiosks, in the Village Hall, in the Village's Newsletter and on the stormwater webpage. The Village will provide information on the Rain Garden App developed by The Center for Land Use Education and Research (CLEAR) at the University of Connecticut on the stormwater page. The app will educate homeowners on basic information about rain gardens and each step of rain garden installation. Notification of the Rain Garden App will be mentioned in the Village newsletter.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village posted educational stormwater information at kiosks/ displays, in the Village Hall, in the Village's Newsletter and on the Village's stormwater page. The Annual Report was posted on the Village's stormwater page. The Village continued its membership with the Oyster Bay Cold Spring Harbor Protection Committee (OBCSHPC); OBCSHPC expanded Community Shellfish Gardening program, distributed educational materials to the public, and publicized public education and outreach activities through the committee's website, Facebook and via email. The Village provided information on the Rain Garden App on the stormwater page.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village will continue to inform residents about stormwater pollution through information at kiosks/ displays, in the Village Hall, in the Village's Newsletter and on the Village's stormwater page. The Village plans to continue its membership with OBCSHPC and participate in the OBSCHPC programs. The Village will provide information on the Rain Garden App on the stormwater page of the website so homeowners can participate in installing rain gardens on residential property. Due to the current gathering restrictions in New York State, the Village will tentatively plan to host events during the reporting period.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village continued to inform residents about stormwater pollution through information on kiosks, in the Village Hall, in the Village's Newsletter and on the Village's stormwater page. The Village continued its membership with the OBCSHPC. The OBCSHPC expanded their Community Shellfish Gardening program and engaged 100+ families to raise 1,000 oysters each (150,000 total) to increase awareness of and involvement in water quality issues affecting the water body. The program also included public meetings, training days, community cleanings, and a year-end celebration. The Village provided information on the Rain Garden App on the stormwater page so homeowners can participate in installing rain gardens on residential property.

C. How many times was this observation measured or evaluated in this reporting period?

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village will continue monitoring municipal operation for stormwater pollution prevention opportunities. The Village will continue annual inspections, removal of materials from structures, use of natural alternatives to control bee populations, and prohibit the use of fertilizers and pesticides on public property. As a long term goal, the Village will evaluate the feasibility of constructing a new building for the storage and washing of maintenance vehicles and equipment.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Approximately 35 cubic yards of material were removed from catch basins. The street sweeper traveled approximately 700 street miles and 4 acres of parking lots during the reporting period. With the exception of the application of natural alternatives to control bee populations, all Village parks are pesticide free. The Village provides road-side refuse and recycling collection for all residences. Salt is stored at the Village's permitted salt storage facility until it is needed for de-icing of road, at which time it is mixed with sand and spread on an as-needed basis. The OBCSHPC implemented comprehensive Pet Waste and Geese Management Programs.

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☒ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).
