## MAYOR'S MESSAGE

### RAVE Emergency Notification System

Date: May 1, 2021

To: Village Residents

From: *Jean M. Thatcher*, Mayor  
Trustees *Bill Burdo; Leland Deane; Jennifer Hubbell; George Patsis;*  
*Hilary Rolih; Matt Strunk*

The Board of Trustees has recently authorized implementation of the **RAVE Emergency Notification System**.

The benefits of the **RAVE** system are that the Village controls input and broadcasts. Notifications are therefore timely and pertinent to Village issues. These include such events as road closures due to flooding or auto accidents; storm-related updates; notifications from schools about transportation; traffic events related to Park activity, etc. "Code Red" which is currently in use is a Suffolk County System, and Village notifications often are delayed behind those pertaining to Suffolk County.

The **RAVE** system has been used for over 20 years by various municipalities, colleges and universities as an emergency notification system. The system is highly secure and there have been no reported problems or breaches. **RAVE** alerts can be directed to the device(s) of your choice.
